# Welcome to the Global Talent Programme

We are delighted to welcome you to the Global Talent Programme (GTP). This innovative award is based on research and co-created with employers to help you discover and demonstrate your true potential in a competitive global marketplace.

We created and piloted the programme with a group of 200 students back in 2016 and since then over 850 of you have joined our growing community submitting over 6,500 activities via our online portal that include cultural, volunteering and industry experiences and many more.

I hope you enjoy the interactive workshops led by inspiring industry and academia guests, the online games and the mix of 100+ learning and life experiences that form our Fusion-inspired portfolio. Make the most of the BU integrated extracurricular programme, immerse yourself in experiential learning and plan your development in a way that matches your unique interests, strengths and aspirations.

Our emphasis is on themes that are key to the global workplace: citizenship, collaboration, resilience, research and innovation. These are relevant mindset, skillset and heartset attributes that employers are looking for, regardless of what you are studying or which industry you choose to work in.

Such a focused approach towards your development will help you evidence that you've crossed intellectual and cultural boundaries and will deliver outstanding results both in your studies and in the workplace, enhancing your future and recognising your achievement above and beyond your academic degree.

Looking forward to seeing you excel on the Global Talent Programme!

Pro Vice-Chancellor

**“The Global Talent Programme offers the amazing opportunity to enhance our global personality and CV, making us more employable. It’s also a chance to connect and build relationships with professionals and other students at BU. The connections I’ve made and the skills I’ve gained were so worth it!”**

Carina Dias, BA (Hons) Accounting and Finance student
